

**EMERGENCY MEETING POINTS  
(IN CASE OF EMERGENCY)**

In the event of a prolonged power outage, you may potentially have no telephone connection to the emergency services such as the police (117), fire brigade (118) or rescue services (144).

In this event, you can request assistance or information from the emergency services at the staffed emergency meeting points. Emergency calls can also be made at the emergency meeting points.

In the event of an incident, the emergency meeting points will be in operation around the clock until the situation is resolved. All emergency meeting points can be reached on foot, by bicycle or car.
